ABOUT ME

Computer science graduate with experience working across Android Development. Looking forward to learning and working with experience team members and growing myself to pursue a challenging career in the leading organizations.

WORK EXPERIENCE

Network Operation Center Executive
Smartnet Ltd [01/04/2021 – 01/10/2022]
Website: https://smartnet.com.bd/

First intern then worked as a network engineer assistant as a full-time employee. I learned there about how network works, how internet works, routing, switching, and so many things about network architecture, configuration and troubleshooting.

PROJECTS

House Rental Android App

House Rent Android App is a service to rent flat/room easily. The concept of this application is making the rental system easy and smart. Owner can post their flat/room details with pictures. The tenant can choose their suitable flat/room and then contact the owner for booking using the app.
Made with: Java, xml, Firebase.
